Professional Summary

I am an Analytics Consultant & Machine Learning Specialist passionate about transforming raw data into actionable insights. I collect, process, analyze, and visualize data to support critical decision-making, solve real-world problems, and contribute to meaningful global change. Experienced in medical, business, and environmental data projects, with a focus on creating interactive visualizations and predictive models.

Professional Experience

Freelance Analytics Consultant & ML Specialist

Nairobi | 2023 - Present

- Collected and cleaned business and medical datasets from diverse sources, ensuring quality and readiness for analysis.
- Applied advanced machine learning and statistical models using Python, Pandas, Scikit-learn, and Matplotlib.
- Built and deployed interactive dashboards, time series analyses, and predictive models enhancing client decision-making.
- Produced clear, compelling data visualizations and reports for technical and non-technical audiences.

Key Projects

- Medical Data Visualizer

Interactive tool to clean, visualize, and analyze complex medical data. Tools: Python, Pandas, Matplotlib, GitHub

- Page View Time Series Visualizer

Analyzed web traffic trends with time series plots. Tools: Python, Pandas, Matplotlib, GitHub

- Sea Level Predictor

Regression model predicting future sea level changes and visualizing trends. Tools: Python, Pandas, Matplotlib, GitHub

Technical Skills

Languages: Python, SQL

Libraries & Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, TensorFlow (intro), Jupyter

Specialties: Data Analysis, Machine Learning, Deep Learning, Data Visualization, Dashboards, Time Series Analysis

Tools: Git, GitHub, VS Code

Articles & Publications

- Medical Data Visualization with Python
- Time Series Analysis for Web Analytics
- Sea Level Prediction Using Regression
