PROFESSIONAL SUMMARY

Detail-oriented Analytics Consultant & Machine Learning Specialist with experience delivering actionable insights through data analysis, machine learning models, and interactive visualizations. Proven track record in translating complex data into meaningful business solutions within healthcare, web analytics, and environmental data contexts.

CORE SKILLS

- Data Analysis & Visualization
 - Predictive Modeling & Machine Learning
 - Python, Pandas, Scikit-learn, Matplotlib
 - Data Storytelling & Reporting
 - Time Series Analysis
 - Dashboards & KPI Tracking
 - Git, Jupyter, Streamlit
-

PROFESSIONAL EXPERIENCE

Freelance Analytics Consultant & ML Specialist | Nairobi, Kenya

2023 – Present

- Collected, cleaned, and structured medical and business datasets for advanced analytics.
 - Developed ML models for classification, regression, and forecasting with up to 85% accuracy.
 - Created interactive dashboards and data visualizations, enhancing client decision-making.
 - Presented complex data-driven insights to both technical and non-technical audiences.
-

KEY PROJECTS

Medical Data Visualizer

- Built an interactive Python application to clean, analyze, and visualize patient datasets.

Page View Time Series Visualizer

- Analyzed web traffic trends using time series plots to identify engagement patterns.

Sea Level Predictor

- Developed a regression-based model forecasting future sea level changes, aiding climate risk assessments.
-

EDUCATION

BSc. Computer Science

Murang'a University of Technology— 2022 - 2026

Certifications:

- Data Science Professional Certificate (Coursera)
 - Data Analysis With Python (freecodecamp)
 - Data Analytics Essentials (Cisco Networking Academy)
 - Computer Hardware Basics (Cisco Networking Academy)
 - Responsive Web Design (Free code camp)
 - JavaScript Algorithms and Data Structures (FreeCodeCamp)
-
